OBJECTIVE

Hands-on AI builder (B.Tech '27) experienced in RAG pipelines, LLM APIs, and ensemble ML, seeking an AI Engineer Intern role to develop intelligent assistants, integrate external tools and APIs, and ship real-world AI features for web and mobile apps.

EDUCATION

B.Tech in Electronics and Communication (Advanced Communication Technology) NMAMIT
CGPA: 7.53 — USN: NNM23AC016 2023 - 2027

PCMB, DEVIKA COMP PU COLLEGE RANEBENNUR - 87.83% 2021 - 2023

SKILLS

AI & GenAI: Retrieval-Augmented Generation (RAG), LangChain, LLMs, ChromaDB, Hugging Face Transformers

Machine Learning & Analytics: Scikit-learn, Pandas, NumPy, Ensemble Learning, Feature Engineering

Languages & Databases: Python, SQL (MySQL), Java, C, HTML, CSS

Frameworks & Tools: Flask, Streamlit, Git, GitHub, Render, Edge Computing

INTERNSHIP

AI/ML Intern, DLithe — (June 2026 – August 2026)

- Engineered an end-to-end RAG pipeline (Python, LangChain) with ChromaDB vector indexing and MiniLM embeddings, powering a Qwen2.5-7B LLM for context-aware QA at $0 API cost.
- Developed an interactive Streamlit chat interface featuring conversational memory and secure document uploads, successfully deploying a user-facing AI prototype.

PROJECTS

Network Congestion Prediction — Ensemble Learning, Scikit-learn, Python

- Built a Voting Classifier ensemble (KNN, Decision Trees, Logistic Regression) using ns-3 network simulation data, achieving 89.7% accuracy to outperform baseline KNN (75.6%) and Logistic Regression (75.4%) models.
- Analyzed classification reports to evaluate real-world viability, proposing decision threshold tuning and SMOTE to address minority-class recall for future deployment.

Full-Stack Portfolio Web Application — Flask, MySQL, Cloud Deployment

- Developed and deployed a personal portfolio website with a Flask backend and MySQL database, hosted on a cloud platform for public access.

LEADERSHIP

Class Representative (CR) & Placement Coordinator — 3rd Year (2025–2026) & 4th Year (2026–2027)

- Served as liaison between students, faculty, and the campus placement cell, coordinating recruitment drives and student communications across cohorts.
